Classmate Interview

Junie B. gets interviewed by her classmate, Lucille during the show. Now it's your turn!

Take some time to learn more about your classmates. Break off into pairs and interview your classmate like you're on a school podcast! For an extra challenge, choose a classmate you don't know very well yet. When you finish, you can present what you learned.

1) What is your favorite color?

2) How many pets do you have?

3) What's your favorite school subject?

Come up with three original questions to ask! (i.e, What's your favorite food?)
